## Algorithm

int main ( )

1. Start
2. Struct student s1
3. Read s1, name, s1. age
4. Display (s1)
5. return 0
6. Stop

void display (struct student s)

1. Start
2. Print s. name, s. age
3. Stop.

int main ( )

void display (struct strudent s)
